

Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 16 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Dry at first, before turning wet over the weekend.

Today:

Any overnight fog will soon clear to leave a mostly dry and bright day with some long-lived sunny spells, though the occasional isolated light shower is possible. Maximum temperature 21 deg C (70 deg F).

Tonight:

Staying dry overnight, with variable cloud allowing for the occasional clear spell. Then turning cloudier from dawn, as some cloud moves in from the west. Minimum temperature 11 deg C (52 deg F).

Friday:

Dry with warm sunny spells at first, perhaps lasting for much of the day. Thicker cloud with some rain may arrive through the evening. Maximum temperature 21 deg C (70 deg F).

Outlook for Saturday to Monday:

A cloudier day with scattered showers, heavy at times on Saturday and Sunday. Drier Monday, though the odd shower is still possible with variable amounts of cloud.
